Hole Saw Sizing	Min	Max
RLDM 6"	5-3/4"	6"

- Heat treated springs hold fixture fitting securely in the ceiling eliminating light leaks
- Can be removed from below the ceiling for service or replacement

### Mounting / Retention

- This fixture requires no housing or third-party junction box
- The remote driver/junction box may be used in direct contact with insulation. Use the keyhole slots to mount to framing if code requires
- Installer must cut the template out of the drywall and install into aperture with the clips compressed (pointing upward)
- When released, the spring clips will rest on the back side of the drywall securing the fixture
- Not for installation in recessed cans
