## Order Information

SAMPLE ORDER NUMBER: HIWAC1BLE40AWH

Device	Generation	Radio	Finish
Device	Generation	Radio	Finish
HIWAC=HALO In-Wall Accessory Dimmer <sup>1</sup>	1=1st generation	BLE40A=Bluetooth Low Energy 4.0	WH=White BL=Black
<b>Notes</b>			
(1) Wall plate sold separately.			

## Multi-Unit Installation Chart

Device	Load Type	1-Gang	2-Gang	3-Gang
Device	Load Type	1-Gang	2-Gang	3-Gang
HIWAC1BLE40AWH	INC/ELV/FLR/Halogen/MLV	600W/VA	550W/VA	500W/VA
	LED/CFL	300W	300W	300W

## Product Specifications

### Wireless System

- For use with the HALO Home mobile app
- Bluetooth low energy (BLE) mesh allows on/off, white tuning and dimming to be controlled wirelessly with companion wall stations, smartphones and tablets using HALO Home mobile application
- Setup Groups, Scenes and Schedules to automate lighting with the HALO Home mobile app

### Wireless Pairing

- See our online HALO Home Quick Start Guides for commissioning, setup, how-tos, and troubleshooting – including our Installation Guide go to [support.BringHaloHome.com](https://support.BringHaloHome.com)

### Bluetooth Mesh

- HALO Home products work better together. Expand and strengthen the Bluetooth network range by adding HALO Home devices
- Commissioning and Set up: Smartphone(s) will need to be within range (~35 ft line-of-sight) of a HALO Home product to commission and set up
- Control: Smartphone(s) will need to be within range (~35 ft line-of-sight) of any HALO Home product to control anything within the mesh. (add remote access to a HALO Home installation by installing the optional Bridge)
- Device-to-device communication is ~100 ft line-of-sight
- Remote access to HALO Home lighting is available with the optional Smart Bridge
- Max Devices/Account: 200
- Learn more at [BringHaloHome.com](https://BringHaloHome.com)

### Control & Dimming

- Prefer constant power so they can repeat or respond to lighting control messages with the Bluetooth Mesh from mobile app, voice (via the optional Bridge), or Controller
- Flicker-free dimming from 100%-5% via app or HALO Home Controllers
- To provide constant power and for best results wire to HALO Home (Remote) Controllers:
  - Accessory Dimmer
  - Accessory Switch (ON/OFF)
  - Scene Keypad (Hardwired)
- If not installing with a HALO Home Controller, these

smart lights can be used with standard ON/OFF switches, although this is not recommended due to:

- Reduced number of powered products within the Bluetooth Mesh
  - Risk of accidental factory resets
- IMPORTANT: Leaving lights on for less than 13-seconds, 4 times in a row (regardless of OFF time) can trigger a factory reset
- Because these dim in response to wireless Bluetooth messages - DO NOT USE WITH OTHER MANUFACTURER'S DIMMERS

### Power Cycle Behavior

- An unpaired HALO Home Smart Light will turn lighting ON to 100% and will flash twice if power is cycled
- Once paired, a HALO Home Smart Light will return to its last known ON dim level as a safety precaution. (If the lighting was OFF previous to the power cycle, lighting will turn ON when power is restored.)

### Features

- Control HALO Home smart lights with the switch or free HALO Home app
- Features ON/OFF, Dimming Groups, Schedules, and Scenes
- Works with HALO Home smart LED lights only

### Environmental

- Rated for Indoor Use only. 32°F to 104°F (0°C to 40°C) damp locations

### Design Features

- Range: Up to 100 feet line of sight
- Dimmer to have four 6" pre-stripped wire leads for line (black), load (red), ground (green) and neutral (white)
- Air-gap switch disconnects power from load forcing an OFF condition to safely work on the light fixtures
- Air-gap switch will also disconnect power from the internal circuitry of the dimmer
- Air-gap switch is a 1 way switch – power is connected through the airgap switch when the air-gap plastic is in, and power does not go through the air-gap switch when the air-gap plastic is pulled out
- Neutral wire will be required for installation
- Large paddle switch that actuates 2 switches. Upper part of paddle actuates one switch ON, and lower part of paddle actuates the other switch OFF for ON and

OFF functions listed below

- Thin dimmer rocker switch that also actuates 2 more switches. Upper part of rocker actuates one switch Brighten, and lower part of paddle actuates the other switch Dim for Brighten and Dim functions listed below
- One status LED under firmware control
- Dimming state shall be retained in the event of AC power loss
- Acoustic noise not to exceed 22 dBA SPL at 1 ft

### Button Functions

- Dim up (Brighten) will brighten the lamps associated to the Smart Dimmer
- Dim down will dim the lamps associated to the Smart Dimmer
- ON will turn on the lamps associated to the Smart Dimmer
- OFF will turn off the lamps associated to the Smart Dimmer
- Holding the ON button for 12 seconds will factory reset the dimmer and it will also be in Bluetooth pairing mode

### Factory Reset

- Hold the ON button for 12 seconds to reset and claim to your account

### Certifications & Compliance

- cULus Listed, NOM Certified. Complies with FCC Part 15, Class B,
- Industry Canada RSS-Gen and RSS-247
- Title 24 and Title 20 Compliant
- NEMA SSL 7A Compliant type 1 Dimmer
- Bluetooth Certification 4.1 or higher + Mesh
- ROHS-2

### Warranty

- Five year limited warranty, consult website for details. [www.cooperlighting.com/legal](https://www.cooperlighting.com/legal)
