## Trellix

### Trellix Locate Asset Tag TRX-TAG-AST1

#### Trellix Locate Asset Tag

##### Typical Applications

Office • Education • Healthcare • Hospitality • Retail

#### Interactive Menu

- Order Information page 2
- Connected Systems page 3
- Product Warranty

#### Product Certification

- Bluetooth QDID/EPL

#### Product Features

Trellix  
Locate

Connected  
Systems

Asset /  
Inventory  
Tracking

- Bluetooth 5.0
- Small form Factor
- Accelerometer
- Unique MAC address

## Overview

Trellix Locate delivers real-time indoor location service and management, by leveraging the Trellix smart space IoT platform. Designed to allow you to monitor activities by sensing the location of your assets, staff and patients and use the data to improve business/production workflows, improve safety and security.

## Top Product Features

- Ideal for asset tracking, activity monitoring and inventory tracking applications
- Configurable parameters using Tag config mobile app
- Low power consumption
- 3-Axis accelerometer
- Battery level monitoring

## Order Information

Catalog Number

Catalog Number	Description
TRX-TAG-AST1	Trellix Locate Tag - Asset 1 year- E8

### Required Accessories

All Trellix system accessories require Trellix Core on-premise hardware platform hosting Trellix Smart Spaces applications (TRX-TCENT2 or TRX-TCVRT2). Ensure the bill of material includes one Trellix Core and one software license from the components below.

Catalog Number

Catalog Number	Description
TRX-TCENT2	Trellix Core Enterprise is an on-premise hardware platform hosting Trellix software applications (supports up to 300 WaveLinx Wireless Area Controllers)
TRX-TCVRT2	Trellix Core Virtual Enterprise is a virtual platform hosting Trellix software applications (supports up to 300 WaveLinx Wireless Area Controllers)
TRX-LOCSNR-1YR	Trellix Locate annual subscription
TRX-LOCBAS	Trellix Locate application

## Product Specifications

### Key Features

Real-time location for assets using Trellix Locate

- Indoor position tracking of assets (tools, portable equipment, vehicles, etc)
- Position based alerting, heat-maps etc.

### Mechanical

**Size:** 1.3" x 0.91" x 0.13" (32mm x 23mm x 3.3mm)

**Weight:** 0.2 oz (6.2 g)

#### Environment:

- **Operating temperature:** -4°F to 140°F (-20°C to 60°C)
- **Storage temperature:** -4°F to 140°F (-20°C to 60°C)
- For indoor use and outdoor conditioned spaces

**Mounting:** 3M VHB adhesive sticker provided with unit

**Color:** White

**Housing:** ABS plastic housing

### Electrical

**Power Supply Type:** CR2032 Battery

**Power Activation:** Remove plastic battery sheet from tag to activate device

#### Battery Life:

Beacon Rate	Expected Life
1 second	12 months
3 seconds	18 months
4 seconds	24 months
30 seconds	30 months

### Hardware Specifications

#### Status Indicators:

- Status LED on front of unit

### Software Specifications

Trellix Locate Tag Configuration App

Trellix Locate

### Compatibility

Trellix Locate

### Wireless Specifications

**Radio:** Bluetooth Low Energy

**Standard:** BLE 5.0

**Transmitter Power:** -40dBm to 4dBm

**Range:** up to 164ft (50m)

**Programmable Beacon Rate:** 1-30 seconds

### Standards/Ratings

- FCC Part 15/ECES-003
- CE (EN300328 / 301489 / 60950 / 62479)
- Bluetooth QDID/EPL

### Warranty

One year warranty

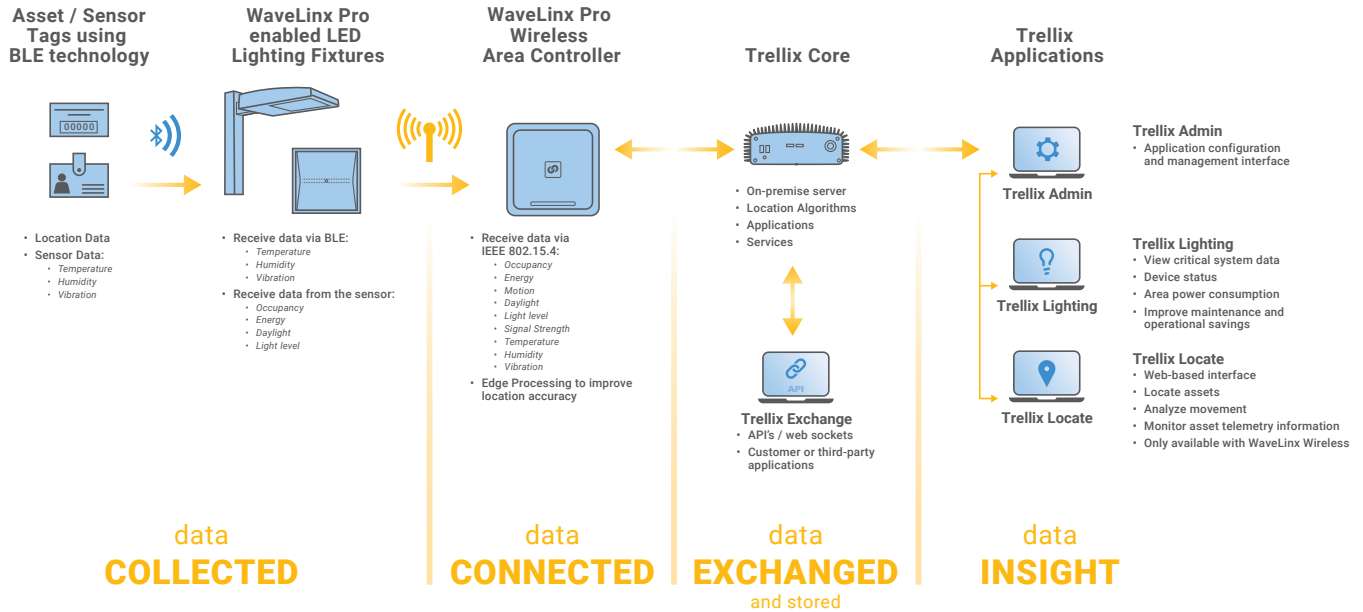

## Control Systems

- Trellix
- WaveLinx Pro wireless

## Better Data. Better Decisions.

Trellix combined with our WaveLinx Pro wireless connected lighting system is a distributed network of LED lighting fixtures with integrated sensing and beacon technology that captures real-time data; making your facility smarter so you can make smarter decisions.

Trellix provides an open IoT platform and infrastructure that connects intelligent sensors leveraging the real-estate of the physical light fixture to solve higher complexity problems in a commercial building to deliver actionable insights through the aggregation of valuable data.

## Sample System Topology

This diagram shows the main components of the WaveLinx Pro wireless connected lighting (WCL) system. The WaveLinx Pro system communicates using wireless mesh technology based on the IEEE 802.15.4 standard. A PoE LAN connection for each Wireless Area Controller (WAC) is required for power and data access to the building wireless network. The Trellix Core Enterprise and WaveLinx Pro Wireless Area Controllers communicate with each other over the Ethernet network. Please refer to the WaveLinx Pro Network and IT Guidance Technical Guide for more information.
