Fail-Safe

CFA

Surface Cleanroom
Laminar Flow / Teardrop
ISO3-8
2' - 8' Length

Typical Applications

Cleanrooms • Technical and Biomedical Labs • Pharmaceutical Labs • Food Processing • Testing Centers • Patient Rooms • Bathrooms

Top Product Features

- Suitable for use in Class 1 environments (ISO3-8 & BSL 1-2)
- Extruded aluminum housing, anti-microbial matte white paint
- Steel endplates secured with 4 flush screws each end, painted to match finish
- Endplate gasket for tight seal
- Available 2000K, 3000K, 3500K, 4000K, 5000K
- Green, red, or amber LEDs available, narrow spectrum
- Ribbed opal lens, internal prisms, for easy wipedown
- Removable modular power tray for ease of installation
- Custom colors available, see ordering information, page 2
- Options to meet Buy American and other domestic preference requirements

		Notes Custom colors available. Please specify RAL number or paint manufacturer/color designation. Flush end plate screws are painted to match housing/endplate color.	Notes (5) EL7W on 4ft and 8ft lengths only. (6) 90 CRI available 3000K, 3500K, 4000K, and 5000K only. (7) Replace XXXX with unique 4 digit RAL number. Please contact Fail-Safe Tech for a list of additional finish swatches.

Fail-Safe Standard Colors

Fail-Safe Architectural Colors

Product Specifications

Application

- Designed for use in vertical, laminar air flow cleanrooms
- Also use as a functional, stylish surface mount fixture; on the ceiling or wall, over the vanity or on both sides of the vanity, or for accent illumination in the patient room

Housing/Endplate

- The narrow, airfoil design minimizes turbulence in cleanrooms that require a uni-directional air flow
- Corrosion-resistant extruded aluminum housing is enclosed and gasketed, and is 2" wide
- Steel endplates secured to housing with countersunk philips head screws
- Anti-microbial matte white finish standard. Gloss white available. Customer colors available, consult factory. Specify RAL number or paint manufacturer/color designation.
- Electrostatically applied, matte white powder coat finish; gloss white, silver, black, bronze, dark platinum available; Custom colors available (supply RAL number, paint chips, or paint manufacturer catalog number). 16 architectural colors available.

Gasket

- Die-formed, one piece gasket on the endplates ensure a consistent, positive seal between the lens and endplate

Lens

- One-piece opal extruded, acrylic lens with internal horizontal prism pattern
- Lens utilizes internal refractors providing concise optical control while providing a smooth environmental side
- Smooth exterior for easy cleaning and wipe-down

LED

- LEDs available in 2000K, 3000K, 3500K, 4000K, 5000K with minimum 80 CRI. 90 CRI available in 3000K, 3500K, 4000K, and 5000K.
- Also available narrow spectrum green (520nm), red (630nm), and amber (590nm)
- Projected life is 50,000 hours at 70% lumen maintenance

Transformer/Driver

- Electronic, 0-10V dimming standard, 10%, 1%, dimming available

Power Tray

- Removable modular tray constructed of 18 gauge, painted white steel
- Removable power tray facilitates quick and easy maintenance and installation

Compliance/Listings

- UL/cUL listed for wet locations standard
- Suitable for Class 1 (ISO 3-8)
- Meets BSL 1-2 when specified in catalog logic.

Warranty

- Five year limited warranty on LEDs and Electrical, consult website for details. www.cooperlighting.com/legal

Nominal Input Watts/Delivered Lumens
