Overview

A stunningly elegant touchscreen with a seamless, uninterrupted glass front plate, providing a beautiful interface if your project requires user interaction. The 5" touchscreen receives automatically generated pages via Expert Control, based on programming in Expert software. Easily control your lighting by activating scenes and adjusting intensity for each Space.

With single cable installation, Expert Touch 5 is a Power-over-Ethernet device. Included is a Universal Mounting Plate which is compatible with world-wide back boxes and boasts a secure and ingenious fitting mechanism.

Product Features

- Touch interface with uninterrupted glass front plate
- Straightforward tool-free installation
- Power-over-Ethernet (for power and data)
- Requires Pharos Expert Controller. Not compatible with the WaveLinux Digital Lighting Control System.
- Expert Software
- Reliability
- Designed for 24/7 operation
