IL52444124ML Corelite

Installation Instructions - Corelite SQ2 Surface Mount

MARNING

Risk of Fire, Electrical Shock, Cuts or other Casualty Hazards- Installation and maintenance of this product must be performed by a qualified electrician. This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and hazards involved.

Risk of Fire and Electric Shock- Make certain power is OFF before starting installation or attempting any maintenance. Disconnect power at fuse or circuit breaker.

Risk of Fire- Minimum 90°C supply conductors.

Risk of Burn- Disconnect power and allow fixture to cool before handling or servicing.

Risk of Personal Injury- Due to sharp edges, handle with care.

Failure to comply with these instructions may result in death, serious bodily injury and property damage.

DISCLAIMER OF LIABILITY: Cooper Lighting Solutions assumes no liability for damages or losses of any kind that may arise from the improper, careless, or negligent installation, handling or use of this product.

IMPORTANT: Read carefully before installing fixture. Retain for future reference.

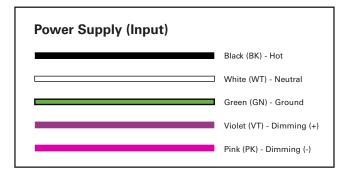

NOTICE: Green ground screw provided in proper location. Do not relocate.

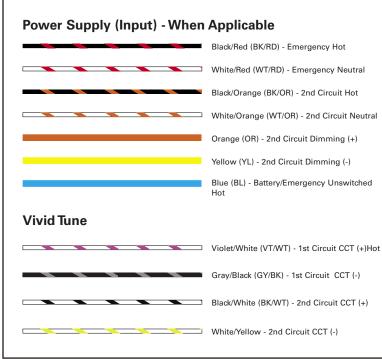

NOTICE: Fixture may become damaged and/or unstable if not installed properly.

Note: Specifications and dimensions subject to change without notice.

ATTENTION Receiving Department: Note actual fixture description of any shortage or noticeable damage on delivery receipt. File claim for common carrier (LTL) directly with carrier. Claims for concealed damage must be filed within 15 days of delivery. All damaged material, complete with original packing must be retained.

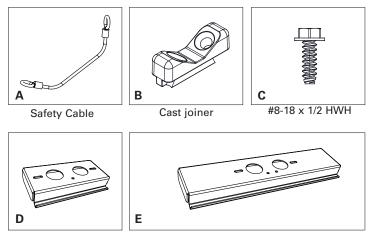

Recommended Equipment:

- 1/4" nut driver
- Flathead screwdriver
- Gloves

Surface Mount Bracket

Dual Surface Mount Bracket

Installation Instructions - Corelite SQ2 Surface Mount

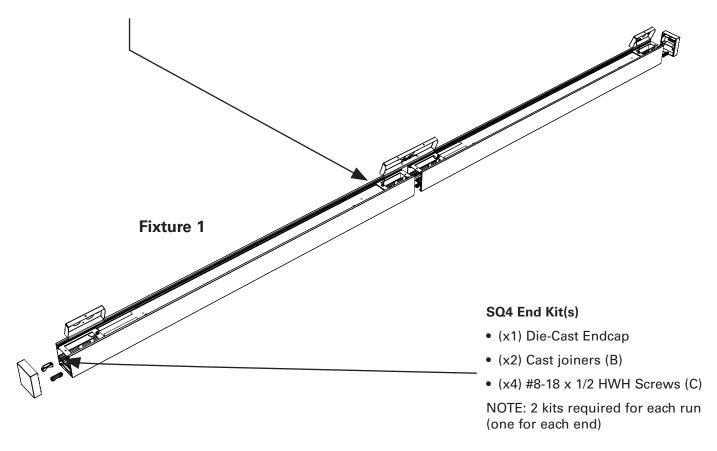

System Overview

SQ4 Joint Kit(s)

- (x2) Cast joiners (B)
- (x4) #8-18 x 1/2 HWH Screws (C)
- (x2) Safety Cables (A)

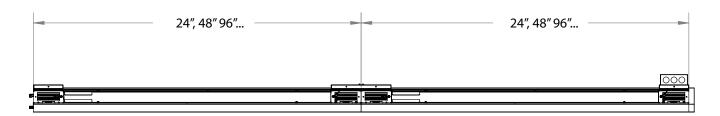

NOTE: 1 kit required for each fixture-to-fixture joint

Fixture 2, 3, 4...

Mount Spacing

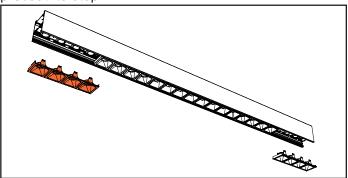

Align the beginning of run Surface Mount Bracket with the end of the fixture. The distance to the center of each subsequent bracket should then match each nominal fixture length. The end of run bracket should then be aligned with the end of the last fixture.

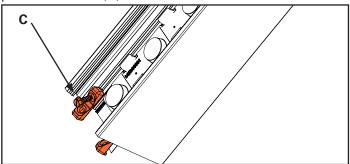

Installation Instructions - Corelite SQ2 Surface Mount

1 Joining Hardware

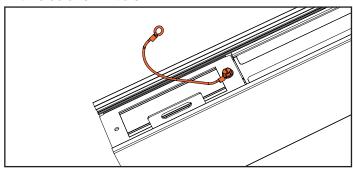

Remove one baffle section from each end of the fixture. If using Discreet baffles, please remove on section from the end of every fixture. If using the continuous roll lens, the lens will not be installed and proceed to step 2.

Install cast joiners at both ends of the fixture using the provided screw (C).

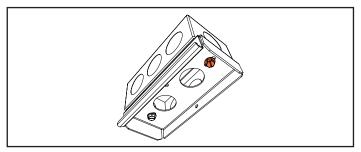

Secure the provided safety cable(F) at both ends of the fixture as shown below.

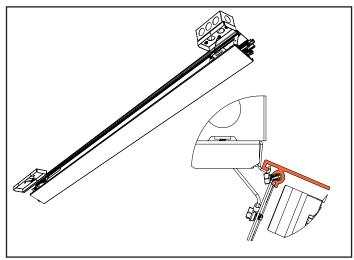

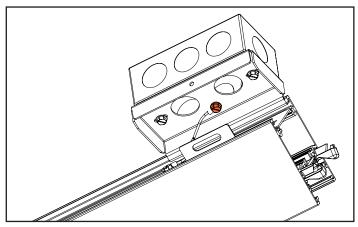

2 Mounting Fixture

Secure the surface mount brackets to the mounting surface.

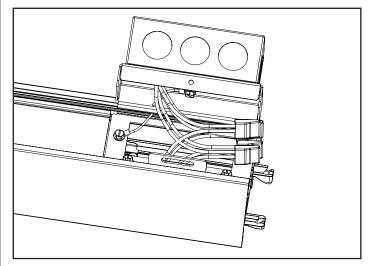

Hang fixture from brackets and secure safety cable to the surface mount bracket (as shown below).

3 Power Drop

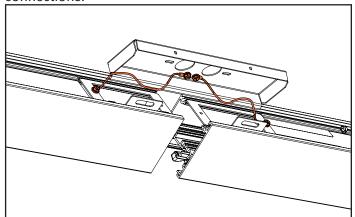

Wire fixture following the wiring guide provided on page 2 of these instructions.

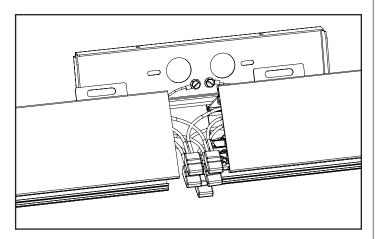

Installation Instructions - Corelite SQ2 Surface Mount

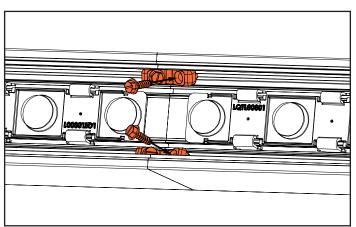

4 Joining

Hang the next fixture in the run on the Dual Surface Mount Bracket, attach the safety cable to both the fixture, and the bracket and make through wiring connections.

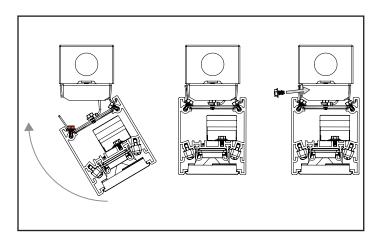

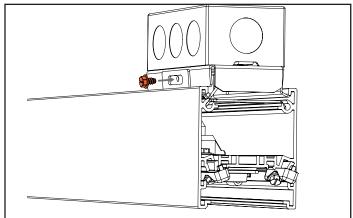

Push the fixtures together and fasten joiners using the provided #8-18 \times 1/2 HWH screws (C).

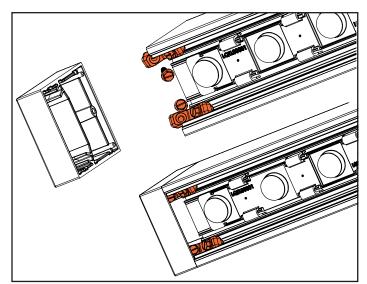

Rotate fixture until level and secure with the provided #8-18 x 1/2 HWH screws (C).

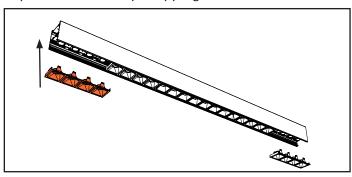

6 End Caps

Secure endcaps to fixture using cast joiners and the provided #8-18 \times 1/2 HWH screws (C).

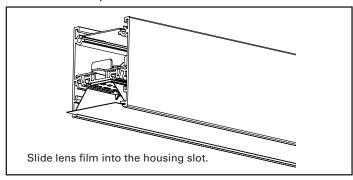

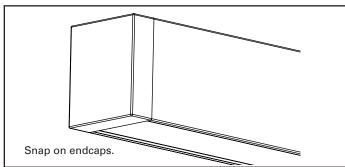

Replace all baffles by snapping in to fixture.

(7) Continuous Lens

Initial steps of installation are identical to the fixtures with discreet optics

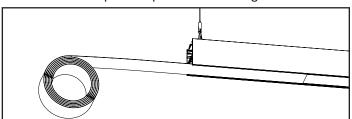

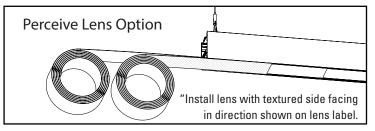

IMPORTANT: If conditions are dusty/dirty, recommended practice is to keep lens roll(s) in plastic packaging and install once conditions are clean. Install roll lens using clean work gloves.

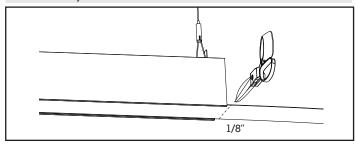

IMPORTANT: Energize fixture to test LEDs and confirm they are all lit before beginning Roll Lens install.

Support the roll lens at one end of fixture (as shown) while another person pulls lens through.

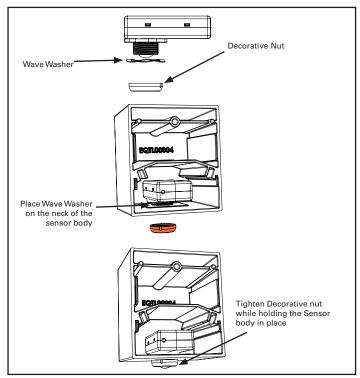

IMPORTANT: Ends of lenses should overhang fixture by 1/8" at each end. Trim lens where necessary. **DO NOT UNDER-CUT.**

8 Sensor End Caps (if applicable)

(9) Fixture Maintenance and Cleaning

Always follow recommended cleaning and handling procedures when cleaning.

Fingerprints and large dust particles can be removed by gently wiping the surface with a clean microfiber cloth. If additional cleaning is required, it is recommended to use Clorox® wipes to remove remaining contaminants by gently rubbing the affected area and allowing to air dry.

FCC Statement

- •This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference.
 - (2) This device must accept any interference received, including

interference that may cause undesired operation.

Note: The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

Note: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off an on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons.
