

SkyBar
High Bay LED luminaire

Metalux

SkyBar High Bay LED luminaire

The **SkyBar™** reimagines high bay and low bay lighting with distinctive aesthetics, industry-first uplight and exceptional optical performance. Multiple lumen packages and distributions provide design freedom for a wide variety of lighting applications. With patented WaveStream™ technology, SkyBar high bay luminaires deliver a stylish LED alternative to traditional fluorescent lighting in both commercial, retail and industrial environments.

Available in single, double, or quad blade configurations

Lumen packages up to 36K lumens

High-performance efficacy up to 148 lm/W

LEDs available in 3500K, 4000K and 5000K at 80 CRI

Rated for -20c to 40c ambient

Occupancy and daylight sensor for added savings

WaveStream™ LED

Taking Control of Light.

SkyBar Single Low Bay LED luminaire

Performance
Multiple lumen packages available: 4 ft.: 3,000, 4,000, 5,000, 6,000, 7,000 and 8,000 lumens 8 ft.: 6,000, 8,000, 10,000, 12,000, 14,000 and 16,000 lumens
High-performance efficacy up to 148 lm/W
Three Correlated Color Temperatures (3500K, 4000K and 5000K) at typical 80 CRI
Standard uplight
Five-year warranty

Options
Narrow and wide distributions
Universal (120V-277V) or 347/480V
Emergency – 7 watt and 14 watt options
Optional reflector shield for downlight only

Controls
SkyBar luminaires include (0-10V) dimming drivers for control using wall dimmers (10% - 100%), daylighting sensors and Room Controllers from Cooper Lighting Solutions.
SkyBar luminaires are available with native DALI drivers for complete digital energy management using Fifth Light addressable lighting controls.

SkyBar Single
Ambient temperature
25°C
TM-21 lumen maintenance (60,000 hours)
> 91%
Theoretical L70 (Hours)
> 268,000

Certification data
LED modules comply with IENSA-LM-79 and LM-80 standards
cULus - Damp location
CSA
RoHS Compliant
DesignLights Consortium® Qualified
NOM Compliant

SkyBar High Bay LED luminaire

Performance
Multiple lumen packages available. Two-blade: 9,000, 12,000, 15,000 and 18,000 lumens Four-blade: 18,000, 24,000, 30,000 and 36,000 lumens
High-performance efficacy in excess of 135 lm/W
Three Correlated Color Temperatures (3500K, 4000K and 5000K) at typical 80 CRI
Uplight in excess of 10%
Five-year warranty

Options
Two-blade (17-1/2" x 50-11/32") and four-blade (22-1/2" x 50-11/32") configurations
Multiple distributions with field-adjustable blades
Universal (120V-277V) or 347/480V
Emergency – 7 watt and 14 watt options

Controls
SkyBar luminaires include (0-10V) dimming drivers for control using wall dimmers (10% - 100%), daylighting sensors and Room Controllers from Cooper Lighting Solutions.
SkyBar luminaires are available with native DALI drivers for complete digital energy management using Fifth Light addressable lighting controls.

SkyBar 4-blade, 19,000 lm
Ambient Temperature
25°C
TM-21 Lumen Maintenance (60,000 hours)
> 91%
Theoretical L70 (Hours)
> 269,700

Certification data
LED modules comply with IENSA-LM-79 and LM-80 standards
cULus - Damp Location
CSA
RoHS Compliant
DesignLights Consortium® Qualified
NOM Compliant

Application versatility

SkyBar fixture blades can be independently positioned vertically or horizontally, as well as inward or outward facing at 20 degree angles to create many different combinations and unique distributions. The result is a vast array of custom configurations which maximize illumination control and performance. The versatility of the SkyBar Series makes it ideal for high bay and low bay applications that require a lighting fixture that delivers up light, a unique aesthetic and superior optical performance.

Blade adjustment options

(Two and four blade only)

- Vertical
- 20° tilt in or out
- Horizontal

Field adjustable blades offer:

- Unique distributions
- Increased uplight
- Customizable fixture performance

VHB LED

Analog dimming on-board

- Standard feature
- Works with 0-10V dimmers and sensors
- Integrated sensor system compatible

Digital dimming on-board

- Fully addressable with Fifth Light systems
- Digital, 2-wire bus and controls

Platform provides flexible control solutions

WaveStream™ LED

Taking Control of Light.

A patented optical coupling process maximizes the amount of light injected into the WaveStream panel, dramatically improving efficiency. Laser precise, patented AccuAim optics arranged in exacting patterns provide unrivaled brightness control while delivering optimal distributions tailored to each fixture and application.
