### Product Certification

### Product Features

### Top Product Features

- Compact square design with integral electrical components and circuiting options
- Seamless illumination with single-piece luminous roll lens
- Seamless Batwing or Asymmetric direct distribution lens available
- Black and white glare reducing louvered baffle options
- Precision indirect batwing optic for maximizing ceiling uniformity and on-center spacing
- Wide range of direct/indirect distributions plus independent up/down circuiting
- Up to 147 lumens per watt Direct-Indirect, 164 lumens per watt Indirect
- Options to meet Buy American Act requirements
- BioUp melanopic lighting options for 30% circadian boost and earn WELL Building Standard points
- Options to meet Build America, Buy America, Buy American and other domestic preference requirements

<p><b>Notes</b></p> <p>Integral 347V driver with STD 0-10V option only.</p>	<p><b>Notes</b></p> <p>Not all driver options are available for every configuration. See Driver Availability tables for more details.</p> <p>W2A used with two (2) 10V dimming control channels - color and intensity. May be combined with WaveLinX.</p> <p>W2D for use with BioUp options only. Tunable White CCT between 2700K and 5000K. Must be used with DALI controls; one address to control two channels - intensity and CCT.</p>	<p><b>Notes</b></p> <p>WPS and WLS sensor must be used with "STD" driver. Integrated Sensor with Emergency circuit "E" requires the EPC option. (18) WPS sensor be used with STD or W2A driver. (19) WLS sensor to be used with STD driver.</p> <p>Integrated options must be used in conjunction with the associated system and may not be compatible with other options or accessories. Please refer to the following: (A) Consult WaveLinX PRO system pages for additional details and compatibility. (B) Consult WaveLinX LITE system pages for additional details and compatibility.</p>	<p><b>Notes</b></p> <p>EPC option used to bypass local control during outage. Must be used in conjunction with UL 1008 device (provided by others).</p> <p>Battery operates entire downlight portion of 4ft, 6ft fixtures and 4ft sections of 8ft and 12ft fixtures.</p>	<p><b>Notes</b></p> <p>CC=must denote RAL color number</p>	<p><b>Notes</b></p> <p>Please refer to ceiling interface diagrams for additional detail and dimensions.</p>	<p><b>Notes</b></p> <p>UM mounting accommodates 15/16" Grid, 9/16" Grid, 4" Octagonal J-Box, and Structure - Adder applies.</p> <p>White mounting hardware standard.</p> <p>For black mounting hardware, add "B" after ceiling type. (e.g. T1-B).</p>	<p><b>Notes</b></p> <p>See 'Standard Row Configurations' table on Page 4 for continuous row length breakdowns.</p> <p>2ft not available with integral sensors, BioUp or emergency.</p>

## Product Specifications

### Construction

- Single-piece extruded aluminum housing
- 3.75" x 3.75" square profile
- Die-formed 20 gauge cold rolled steel LED tray
- Driver accessible from above while fixture is suspended

### End Caps

- Die cast aluminum end caps allow for expansion of roll lens to eliminate light leak
- Attach mechanically to the end of the fixture without exposed fasteners
- Standard end cap adds 0.75" at each end. Integrated sensor end cap adds 1.5" at each end

### Lengths

- Available in 2-ft, 4-ft, 6-ft, 8-ft, and 12-ft sections
- Modular design eliminates the need for starter, intermediate, and end of run sections
- See table on page 4 for standard continuous row length breakdowns

### Finish

- Electrostatically applied polyester powder coat paint
- White, silver, and black finishes are standard.
- RAL custom colors are available

### Mounting

- Aircraft cable mounts on 2'-0", 4'-0", 6'-0", 8'-0", or 12'-0" centers, equal to the respective unit length
- Can also be adjusted along the length of the fixture to match existing mounting points
- Minimum suspension height from ceiling to top of fixture is 5"
- Fixture is balanced to allow for minimal leveling
- All sections are continuously wired with push-in connectors for fast installation
- Fixtures can be joined for straight continuous runs using supplied alignment pins and internal cast joiners
- Refer to installation instructions for various ceiling interface details

### Shielding

- **F:** Frosted continuous flexible roll lens creates seamless illumination along entire row length. Single piece roll lens up to 100 ft.
- **FB:** Frosted batwing continuous flexible roll lens creates seamless illumination along entire row length. Single piece roll lens up to 100 ft.
- **FA:** Frosted Asymmetric continuous flexible roll lens creates seamless illumination along entire row length. Single piece roll lens up to 100 ft.
- **BB(Black) and WB(White):** Injection molded louvered baffles with 1.5" openings for glare management and frosted glare control diffuser to shield direct view of LEDs and lower UGR values and improve visual comfort.
- **PC3, PP3, PW1, PR1, PH1:** Proprietary Perceive™ optical system enables dynamic visual depth on a flat surface while providing glare-reducing performance with comfortable, high-quality illumination. Perceive continuous flexible roll lens creates seamless illumination along entire row length. Single piece roll lens up to 100 ft.

### Optics

- Precision engineered acrylic TIR optics on upper and lower LED light engines for optimal light distribution and uniformity
- 112.5° peak candela angle

### LED and Light Engine

- LEDs are available in 2700K, 3000K, 3500K, 4000K
- CRI options of either  $\geq 80$ CRI or  $\geq 90$ CRI
- Lumen output will be affected - please refer to the lumen adjustment factor tables
- TM21 life at 60,000 hours up to L84 and calculated L70 exceeds 121,000 hrs.
- Drivers available in 120-277V and 347V

### Integrated Controls

- 0-10V dimming to 1% standard
- WaveLinX sensor compatible for IoT capability
- DALI 2.0 and Lutron dimming available

### Emergency Options

- Emergency circuit option operates entire downlight portion of a specified unit (4 ft, 6 ft, 8 ft, or 12 ft)
- Optional 6-watt 120-277V integral emergency battery illuminates a 4 ft. down-light section
- 90-minute backup period for code compliance
- Test switch/indicator button located on the top side of the luminaire
- For approximate delivered lumens multiply the lumens per watt of the desired fixture by the wattage of the emergency battery pack (100 lm/W x 6 = 600 lumens)
- Battery is self-testing
- UL 924 emergency/generator transfer options available

### Weight

- 3.5 lbs. per foot

### Compliance

- cULus listed for damp locations
- Tested to IESNA LM-79 and LM-80
- RoHS compliant
- Stated life per TM21 standards
- Can be used for State of California Title 24 high efficacy luminaire
- DesignLights Consortium® Qualified and classified for DLC Standard and DLC Premium (refer to [www.designlights.org](http://www.designlights.org))

### BABA Domestic Preference Compliance

- FHWA and FTA agencies are utilizing their BAA rules for BABA compliance. Cooper's products with a BAA designation are manufactured in the US and meet the BABA defined cost of components rule. To verify a configured product with specific accessories and options meet BABA Domestic Preference Requirements; submit this catalog number to Cooper Lighting Quotation team for validation by our Engineering and Manufacturing teams. Domestic preference options to meet BAA, TAA or BABA requirements. BABA is the minimum Government compliance requirement for the Build America Buy America standards which is part of the Infrastructure and Investment Jobs Act (IIJA). Individual Government Agencies may have more stringent compliance standards. Please refer to the [DOMESTIC PREFERENCES](#) website or consult the CLS Domestic Preferences team for more information. Components shipped separately may be separately analyze under domestic preference requirements.

### Warranty

- Five year warranty standard [www.cooperlighting.com/legal](http://www.cooperlighting.com/legal)

Continuous Lens

Adjustable Mounting

Shielding & Finish Options

Note: All Finish and Shielding combinations are available. Not all are shown. Custom color housing finishes are also available.

Lumen Adjustment Factors

CCT	3000K		3500K		4000K		5000K		
	CRI	80+	90+	80+	90+	80+	90+	80+	90+
Lumen Multiplier	0.956	0.803	1.000	0.852	0.988	0.888	-	-	-
BioUp Static	-		0.969		0.955		0.934		-

Example Calculation:

025U-075D / 3500K / 80 CRI  
Lumen Output selected = 985 lms/ft

3500K / 90 CRI/ Perceive Prism Lens Desired

Lumen Adjustment Factor = 0.852  
Lens Lumen Adjustment Factor (Direct Output) = 0.970

Adjusted Lumen Output:

Lumens Up = 242 lms/ft x 0.852 = 206 lms/ft  
Lumens Down = 744 lms/ft x 0.852 x 0.970 = 615 lms/ft  
Total Lumens = 206 lms/ft + 615 lms/ft = 821 lms/ft

Lens Lumen Multipliers (applied to Direct/Down output)- Perceive Lenses

Adjusted Lumen Output = 985 lms/ft x 0.852 = 839 lms/ft

**Control Solutions**

- WaveLinX LITE wireless
- WaveLinX PRO wireless
- WaveLinX CAT wired
- WaveLinX Wired

The SQ4 with WaveLinX offers no-hassle lighting control with multiple luminaire level control solutions.

**WaveLinX PRO** is a wireless lighting control solution, for connected spaces, that significantly reduces a building's energy consumption. From a single floor to an entire campus, WaveLinX PRO connects more than lighting assets; it shares aggregated sensor data with the WaveLinX CORE platform and other building systems, so building owners can improve operations, spaces environment, and tenants' experience. WaveLinX PRO offers a rich portfolio of wireless devices, WaveLinX PRO-enabled luminaires, and an intuitive WaveLinX mobile app for office, education, warehouse, and parking garage applications.

**WaveLinX LITE** is a cost effective, wireless digital lighting control solution, with out-of-the-box functionality, that saves energy and meets code. It's designed for applications that require occupancy-based, daylighting, or manual light control. Customize installations for office, education, warehouse and parking garages using the secure, simple mobile app.

**Integrated Sensor Coverage Pattern**

*Note: Installation of integrated sensors within 3-ft (1m) of HVAC air vents is not recommended. The pattern shown is intended solely as a general guide and is not to scale.*

Integrated Controls Options					
Option	Out of the Box Functionality	Luminaire Level Lighting Control (LLLC)	Automatic Dimming Photocell	Occupancy Sensing	CCT Control
WLS	X	X	X	X	
WPS		X	X	X	X

**Note:** WaveLinX utilizes scenes to allow users to change an area's fixtures Correlated Color Temperature (CCT) and intensity using commissioned manual wireless wallstation scene control. To enable CCT adjustments through WaveLinX, include WPS or WPN devices in addition to VividTune or BioUp technologies for integrated fixture control.

**Systems comparison chart**

Cooper Lighting Solutions provides many lighting system solutions designed to satisfy code requirements and meet the unique needs of any project.

**SQ4 with VividTune Tunable White**

VividTune tunable white luminaires from Cooper Lighting Solutions deliver high-quality light in a broad range of continuously variable color temperatures and intensities. Create a dynamic environment by adjusting the ambient light warmer or cooler to influence mood, support the task at hand, or create a dramatic ambience. The ability to control correlated color temperature and intensity separately using simple controls is the next evolution of LED lighting for the commercial, educational, healthcare and hospitality space. The unparalleled flexibility and number of available lighting environments enable users to find the right light with tunable white.

CCT Multiplier	90CRI 3000K-5000K	90CRI 2700K-6500K	BioUp 2700K-5000K
2700K	-	0.954	0.996
3000K	0.981	0.974	0.986
3500K	1.000	0.997	0.969
4000K	1.011	1.016	0.955
4500K	1.018	1.032	0.945
5000K	1.025	1.044	0.934
5700K	-	1.058	-
6500K	-	1.068	-

**Example Calculation:**

025U-075D / 3000K-5000K tuned to 3500K  
Lumen Output selected = 1202 lms/ft

90CRI 3000K-5000K tuned to 4000K  
Lumen Adjustment Factor = 1.011

Adjusted Lumen Output = 1130 lms/ft x 1.011 = 1215 lms/ft

**Controlling VividTune and BioUp Tunable White**

From wall dimmers to wireless controls, tunable white luminaires are compatible with industry standard 0-10V and DALI controls. One channel to control intensity (brightness) and a second channel to adjust CCT.

### Material Transparency

The ILFI (International Living Future Institute) has created a program where manufacturers can disclose the components or “ingredients” of a product. This disclosure has a rating system that shows transparency in the materials chosen in developing products, and whether there are any chemicals of concern, to help meet the requirements of leading green building standards that support human and environmental health.

Declared

- Products disclose 100% of ingredients present in final product, but contain one or more Red List chemicals that are not covered by an approved exception.

# Proven Research. Industry Recognized.

## BioUp

Melanopic Lighting

See better

Feel better

Function better

See [BioUp brochure](#) for more details

ANSI/IES RP-46-23

**RECOMMENDED PRACTICE:**  
SUPPORTING THE PHYSIOLOGICAL AND BEHAVIORAL EFFECTS OF LIGHTING IN INTERIOR DAYTIME ENVIRONMENTS  
AN AMERICAN NATIONAL STANDARD

ANSI/IES RP-46-23 / TM18 published March 2024 based on over 40 years of research.

"...circadian clock synchronization is paramount to the body's efficient and appropriate functioning." – TM18

BioUp solutions maximize WELL points for Circadian Lighting Design (L03):

**MDER, M-EDI** and **EML** are key metrics used to quantify non-visual performance of indoor lighting systems.

See [BioUp white paper](#) for more details

**MDER** - Melanopic Daylight Efficacy Ratio (MDER) measures the amount of light stimulating to the melanopsin receptors.

**Standard 4000K LED**  
MDER = .62

**BioUp 4000K LED**  
MDER = .82

## 30% boost Biological impact compared to traditional LED sources

CCT	LED MDER ~83 CRI	BioUp Static		BioUp Dynamic	
		MDER	CRI	MDER	CRI
2700K	0.44	-	-	0.43	95
3000K	0.49	-	-	0.54	94
3500K	0.56	0.71	90	0.71	90
4000K	0.64	0.84	87	0.82	87
5000K	0.77	0.98	84	0.98	84

BioUp enhances the LED spectrum with cyan light at 475nm increasing the biological impact of the light to enhance our circadian rhythm which regulates our sleep/wake cycle, daytime engagement, and mood – **all without distorting visual color impression.**

### Static (non-tunable)

Static BioUp is used when simple Melanopic Lighting is desired at all times.

Arrow in graph shows BioUp spectrum boost is at 475nm where non-visual biological response is enhanced.

3500K or 4000K or 5000K

Cyan light component always present

> no CCT control needed

### Dynamic - (Tunable)

Dynamic BioUp is used when Melanopic Lighting is desired to adjust during the day.

Warmer CCT Without Cyan content ← → Cooler Light With Cyan content

2700K – 5000K

> Control with Wavelinx, 2ch 0-10V, or DALI
