Top Product Features

- Three color temperature and three lumen package choices up to 145 LPW for use in a variety of applications
- Selectable switches are located on top of the driver box with access below the ceiling
- Micro-optics provide uniform illumination across the entire lens
- Extruded aluminum frame tightly seals to the housing for optimal performance and aesthetics
- Two box solution that expedites installation and reduces cost
- Ships in multi-packs of 4 to minimize packaging waste
- Optional field installable selectable switch locks enable watts per sq. foot compliance

Metalux

CGRK Selectable Lumens and CCT

1x4, 2x2, 2x4 Backlit Panel Retrofit Kit

Typical Applications

Offices • Education • Healthcare • Retail

Notes:

(2) UGR values per CIE 190:2010 with 4H, 8H, Reflectance: 70% Ceiling, 50% Wall, 20% Ref. Plane Luminance measured at 45-90 degrees from nadir.

UGR and Luminance values that meet WELL v2 L04 requirements for Managing Glare are shown with green highlighted cell (UGR < 16, Luminance < 6,000).

UGR and Luminance values that meet LEED v4.1 requirements for Glare Control are shown with green text (UGR < 19, Luminance < 7,000).

CGRK Product Specifications

Construction

- Die-formed steel back plate is post-painted to ensure durability
- IP5x rating for ingress protection
- Designed for installation into conventional 1x4, 2x4, and 2x2 troffer housings
- Mounting rails and luminaires shipped in two boxes to expedite installation and reduce project cost
- Shipped in multi-packs of 4 to minimize packaging waste saving project time

Electrical

- Aluminum frame weld and ground, for a seamless appearance
- CGRK projected lumen maintenance based on TM21 testing standards is >L89@60,000 hours
- LEDs are 80 CRI (minimum) and switch to 3500K, 4000K, or 5000K.
- Emergency battery pack options available in 14W and 7W
- Knock outs provided in mounting rails for emergency battery backup test indicator light
- Default CCT/Lumen Setting: 4000K/Medium

Controls

- Fixture comes with field selectable lumens and CCT dipperswitches. Standard UNV 120-277 driver with 0-10V dimming with dim-to-off
- Optional integrated DLC/NLC 5.0 listed sensor and field installable emergency battery back up
- Optional field installable dipswitch locks enable watts per sqft. compliance and prevent end users from making modifications in the future

Optical Shielding

- Micro-optics enable uniform distribution of LEDs for uniform lens illumination
- Smooth, frosted lens delivers uniform illumination and surface texture to minimize scratch and impact damage

Certifications

- cULus listed for 25C ambient environments, indoor applications
- UL damp location listed
- IESNA LM-79 and LM-80 standards compliant

- DesignLights Consortium® Qualified and classified for DLC Standard and DLC Premium, refer to www.designlights.org for details
- Qualifies as State of California Title 24 high efficiency luminaire (non-residential)
- FCC part 15 class A compliant
- Meets IP5X rating from the room side with no modification needed

Warranty

- Five year standard warranty
- Optional 10-year warranty, contact factory for more details

Efficacy: 145.3 LPW
Test Report: 24CGRK-L3C3-UNV-MP4-MID-4000K.IES

Control Solutions

- WaveLinx LITE wireless

The CGRK with WaveLinx offers no-hassle lighting control with multiple luminaire level control solutions.

WaveLinx LITE is a cost effective, wireless digital lighting control solution, with out-of-the-box functionality, that saves energy and meets code. It's designed for applications that require occupancy-based, daylighting, or manual light control. Customize installations for office, education, warehouse and parking garages using the secure, simple mobile app.

Integrated Sensor Coverage Pattern
