Top Product Features

- Classic 4ft long wide body wrap - 8.8" and 14.8" widths
- Low-profile 2" lens with microprism LED optics
- 5 Lumen Select up to 8000 lumen and >125 lm/W
- 5 CCT Color Select - 3000/3500/4000/4500/5000K
- Mounts to junction box, ceiling or wall mount with included hardware
- Removable KO for conduit end or thru-wire feed

Product Specifications

Construction

- Cold rolled steel die form housing with finished ends
- Captive high-impact plastic end caps
- Electrical compartment covered by metal enclosure

Finish

- Post painted matte powder coat white paint for durability and reflectance

Electrical

- L70 is more than 60,000 hours based on TM21 testing standards
- 120-277V 0-10V dimming down to 10%
- Driver comes with 22AWG purple and pink low-voltage wiring for 0-10V dimming
- Default CCT Setting is 5000K and default lumen setting is 6000 lumen (Med 8.8") or 8000 lumen (Wide 14.8")

Emergency Options

- 120V-277V integral emergency battery pack in 10-watt (NFPA 101® Life Safety Code®)
- Self-diagnostic switch on EBP battery for automatic code compliant testing when switch is "ON"
- Integrated test switch/indicator light visible from floor
- Min. 90-minute backup period for code compliance

Integrated Controls

- Standard with 0-10V dimming driver (10% standard)
- Integrated WaveLinX options provide wireless individual fixture control and enable code compliance, increased energy savings, grouping of fixtures, and connection to WaveLinX control systems

Shielding

- Polycarbonate diffuser with microprism optic
- Standard white LED lens blend for even illumination and improved aesthetics
- Replaces 3 or 4 lamp fluorescents up to 128W
- Achieve up to 10% uplight and uniform ceiling to floor coverage

Installation

- Surface (wall or ceiling) mount via junction box or direct to surface
- Suspension mount capable using standard V-hook or Y-toggle mounting kits (Sold Separately)
- Jbox hardware and wirenuts included
- End feed using removable knock-out for conduit
- Thru-wire capable due to electrical enclosure
- Pendant mount capable through back KOs (Kits sold separately)

Compliance

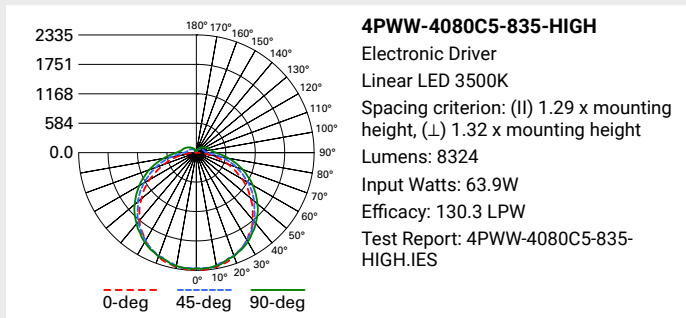

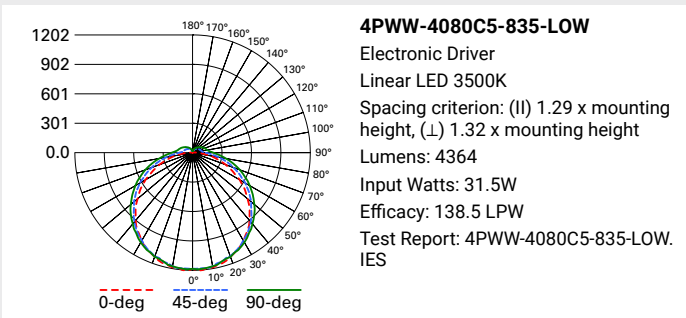

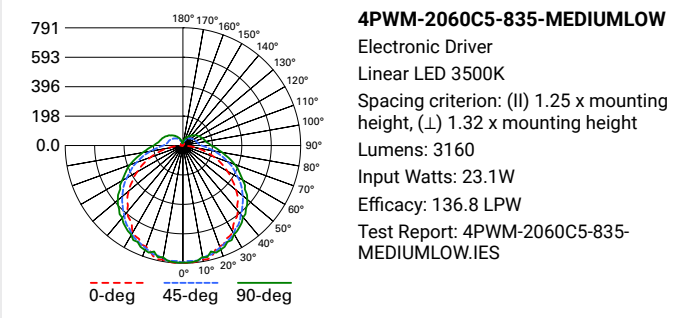

- UL/cUL listed for damp location
- Rated for -4F (-20C) to 104F (40C) ambient operating temperatures
- Meets FCC Part 15 Class B requirements
- RoHS compliant
- LED complies with IESNA LM-79 and LM-80
- DesignLights Consortium® Qualified and classified for DLC Standard, refer to www.designlights.org for details

Warranty

- Five year limited warranty

Control Solutions

- WaveLinx LITE wireless
- WaveLinx PRO wireless
- WaveLinx CAT wired
- WaveLinx Wired

The ProWrap with WaveLinx offers no-hassle lighting control with multiple luminaire level control solutions.

WaveLinx PRO is a wireless lighting control solution, for connected spaces, that significantly reduces a building's energy consumption. From a single floor to an entire campus, WaveLinx PRO connects more than lighting assets; it shares aggregated sensor data with the WaveLinx CORE platform and other building systems, so building owners can improve operations, spaces environment, and tenants' experience. WaveLinx PRO offers a rich portfolio of wireless devices, WaveLinx PRO-enabled luminaires, and an intuitive WaveLinx mobile app for office, education, warehouse, and parking garage applications.

WaveLinx LITE is a cost effective, wireless digital lighting control solution, with out-of-the-box functionality, that saves energy and meets code. It's designed for applications that require occupancy-based, daylighting, or manual light control. Customize installations for office, education, warehouse and parking garages using the secure, simple mobile app.

Integrated Sensor Coverage Pattern

WaveLinx PRO/LITE Sensor – WLS and WPS

TOP VIEW:

SIDE VIEW:

Note: Installation of integrated sensors within 3-ft (1m) of HVAC air vents is not recommended. The pattern shown is intended solely as a general guide and is not to scale.

Integrated Controls Options

Option	Out of the Box Functionality	Luminaire Level Lighting Control (LLLC)	Automatic Dimming Photocell	Occupancy Sensing	CCT Control*
WLS (WaveLinx LITE Sensor)	X	X	X	X	
WPS (WaveLinx PRO Sensor)		X	X	X	X

Note: *WaveLinx utilizes scenes to allow users to change an area's fixtures Correlated Color Temperature (CCT) and intensity using a commissioned wireless wallstation scene controller. To enable CCT adjustments through WaveLinx, include WPS or WPN devices in addition to VividTune or BioUp technologies for integrated fixture control. WPS with CCT controls the intensity of the fixture; an additional, externally mounted control device is needed to control the CCT. See [RSP-P-010-347](#)

The WNPS option is available with WLS or WPS sensors. Must be specified when ordered. Also note that WLS and WPS are also compatible with ESP-L-010-347 and ESP-P-010-347, respectively. Learn more about WaveLinx EM [here](#).
