

DESCRIPTION

The WN Series is a specification wraparound luminaire featuring energy efficient performance. The luminaire's clean, low profile design is both appealing and functional. The WN Series utilizes a clear, low brightness, extruded acrylic refractor for high performance and aesthetics.

The efficient and stylish WN Series is the perfect wraparound for schools, offices and other commercial and retail spaces.

SPECIFICATION FEATURES

Construction

Housing consists of die formed cold rolled steel. Ends formed with the housing for strength and provisions for continuous row aligners. Steel end plates with 7/8" KO and light-seal embossment. Ballast cover easily removed without tools.

Electrical*

Ballasts are CBM/ETL Class "P" and are positively secured by mounting bolt. Rotor lock lampholders. UL/CUL listed. Suitable for damp locations.

Finish

Multistage, prepaint ensures maximum bonding and rust prevention.

Lens

100% clear acrylic prismatic lens.
Sides have inside linear prisms and
bottom has pyramidal prisms for
low brightness control.

Compliance

Suitable for use in clothes closets when installed in accordance with the NEC 410.16 spacing requirements.

NOTES: ⁽¹⁾Steel endplates with 7/8" KO standard for continuous row mounting. ⁽²⁾Suspension mounting not recommended for 3 lamp models. ⁽³⁾Products also available in non-US voltage and frequencies for international markets. ⁽⁴⁾Not Available when specifying emergencies, voltage must be specified. ⁽⁵⁾A low profile battery pack is required for installation with standard ballast cover (consult Cooper Lighting Solutions). ⁽⁶⁾Step dimming ballasts available for 28WT5 lamps only. ⁽⁷⁾2 ballasts are required when specifying 3 lamps and 28T5 wattages. ⁽⁸⁾Please specify required voltage, 120V or 277V.

For complete product data, reference the Fluorescent Specification binder. Specifications & dimensions subject to change without notice. Consult your Cooper Lighting Solutions Representative for availability and ordering information.
