

Description

Live End Feed for HTEK4 two circuit / two neutral 277V track. Multiple breaker sizes are available. Can be utilized on hard or grid ceilings. Can be used with pendant suspended track. Breaker can be used as an on-off switch.

Current Limiters

The increasing awareness of energy usage has led to stringent legislation mandating rigid "watts-per-foot" requirements for track lighting.

Current Limiters replace the feed point of a track system. The feed is contained in a larger enclosure with an integral circuit breaker.

Some codes state that for energy usage calculations (when using track) you must account for a certain amount of wattspere-foot regardless of how many heads you plan to use on that track. When using track of any substantial length - this adds up and is typically far more energy than would be used in common track lighting applications.

Current limiter systems allow the designer to limit how much energy goes against the total energy cap for each track system. These circuit breakers are interchangeable and come in different current ratings depending on how much lighting is to be used on a given track system. Ultimately, for energy calcs, the designer only allots what the CB is rated for.

Ordering Information

Example: HTEK11CB 0138 0138 2
(HTEK left end feed, 138W x 138W current limiter, black)

Product Description	Circuit Breaker 1	Circuit Breaker 2	Finish
HTEK11CB - Current Limiter End Feed - Left	0138 - 138W (.5A @ 277V)	0138 - 138W (.5A @ 277V)	1 - Aluminum
HTEK12CB - Current Limiter End Feed - Right	0277 - 277W (1A @ 277V)	0277 - 277W (1A @ 277V)	2 - Black
	0692 - 692W (2.5A @ 277V)	0692 - 692W (2.5A @ 277V)	3 - White
	1385 - 1385W (5A @ 277V)	1385 - 1385W (5A @ 277V)	
	2216 - 2216W (8A @ 277V)	2216 - 2216W (8A @ 277V)	
	2770 - 2770W (10A @ 277V)	2770 - 2770W (10A @ 277V)	

For use with Halo's HTEK4
277V Two Circuit / Two Neutral Track
