

Lumark

Prevail Discrete

Features and Benefits

Low profile. High performance.

The Prevail Discrete area and site luminaire combines optical uniformity, energy efficiency and long-term reliability in an advanced, patent pending modern design. Now utilizing a direct-mounted discrete light engine, the Prevail Discrete luminaire delivers unparalleled uniformity and improved visual comfort. A versatile quick mount standard arm facilitates ease of installation for both retrofit and new installations. The Prevail Discrete fixture replaces 150-1,000W metal halide fixtures in general area lighting applications such as parking lots, walkways, roadways and building areas.

PRODUCT FEATURES

- Direct-mounted discrete light engine for improved optical uniformity and visual comfort
- Standard versatile quick mount arm easily accommodates various poles and existing drill patterns resulting in reduced installation time
- Low profile housing design allows for low EPAs and fixture weights for added labor savings
- Precision engineered optical distributions deliver up to 148 lumens per watt resulting in additional energy savings
- Controls options ranging from simple dusk-to-dawn, to stand-alone occupancy sensing, to advanced, integrated, wireless systems to maximize energy savings and code compliance

DESIGN FEATURES

Versatile mount arm

Mounts to multiple drilling patterns 1-1/2" to 4-7/8"

Versatile mount arm

Simple knock-out allows for mount to square or round poles

Discrete LED Optics

Maximize area coverage with superior uniformity and visual comfort.

QUICK FACTS

- Lumen packages range from 7,500 up to 41,000 lumens
- 120 - 277V (standard); 347V, 480V (available)
- 0-10V dimming standard
- 3000K / 4000K / 5000K CCT available; 70 CRI
