

PrentaLux 200s Series LBC Red List Approved

Cooper Lighting Solutions is excited to share that the PrentaLux, Printed Light 200s pendant series have been LBC Red List approved. A step up from Declare.

With an End of Life option of 90% recyclable, we are leading the charge in the purpose of creating a more sustainable future.

Over the next few weeks, the PrentaLux brand will be rolling out a Sustainability message, including this compliance certification, additional information about the sustainability of the materials themselves, how much of the product is 3D printed, and the partners we are teaming up with to recycle the product at end of life.

New information on these great products will be available by **April 1st**. Stay tuned!
